## **Multiscale Dissipative Mechanisms and Hierarchical Surfaces**

Friction, Superhydrophobicity, and Biomimetics

Series: NanoScience and Technology

- ▶ **First book on biomimetic surfaces**
- ▶ **Comprehensive review of hydrophobicity and biomimetic surfaces**
- ▶ **Both a reference work for researchers and engineers and a text for graduate students**

**Multiscale Dissipative Mechanisms and Hierarchical Surfaces** covers the rapidly developing topics of hierarchical surfaces, roughness-induced superhydrophobicity and biomimetic surfaces. The research in these topics has been progressing rapidly in the recent years due to the advances in the nanosciences and surfaces science and due to potential applications in nanotechnology. The first in its field, this monograph provides a comprehensive review of these subject and presents the background introduction as well as recent and new results in the area.
