Postdoctoral Researcher Opening in the Nanoprobe Laboratory for Bio- & Nanotechnology and Biomimetics (NLB²) at the Ohio State University

Good written and communication skills are required. It is much easier to get work visa for people already in the US, therefore, preference will be given to anyone currently residing in the US. Also preference will be given to those just finishing PhD degree. For further details on the NLB² Lab, please visit:

https://nlbb.engineering.osu.edu/
If you are interested, please send your bio, date of availability and duration of postdoc desired. Please send details to Prof. Bharat Bhushan, email: bhushan.2@osu.edu, Tel: 1-614-292-0651
